

DIRECT ENDPOINT MANAGEMENT

PLUGIN FOR NinjaOne

Progress. Protected.

Benefits

COMPREHENSIVE, CROSS-PLATFORM SECURITY

Offer best-of-breed antimalware options to your network of managed Windows and macOS clients. Replace existing solutions for ESET's clients requiring low system resource usage and proactive detection of multiple threat vectors using advanced malware detection technologies.

EASE OF MANAGEMENT

The familiar NinjaOne cloud console provides ease of management and adoption of ESET solutions thanks to the tight integration with NinjaOne via the plugin.

SATISFIED END USERS

Real-time monitoring and remediation helps resolve security issues quickly and makes for confident helpdesk techs and satisfied end users.

SYSTEM REQUIREMENTS

ESET Business Product Licenses

Active licenses of any of the following ESET endpoint products:

- ✓ ESET Endpoint products for Windows and macOS
- ✓ ESET Server products

For the complete list of supported ESET products visit help.eset.com.

NinjaOne

To review NinjaOne system requirements please visit NinjaOne website.

The cloud-based remote management and monitoring tool NinjaOne offers MSPs a simple and efficient way how to monitor servers and endpoints for their customers, run on-demand tasks or connect instantly if needed.

Leveraging the NinjaOne agent, ESET Direct Endpoint Management plugin for NinjaOne makes it easy to deploy and activate ESET endpoint protection software. The plugin offers a wide range of functionalities, enabling MSPs to manage endpoint security from the familiar NinjaOne dashboard, without the need to run an additional management console.

ninjaOne

Features

MANAGE CLIENT ENDPOINT SECURITY

Initiate on-demand endpoint scans, module updates and ESET security product activation, without requiring an additional console.

PROTECT ENDPOINTS, SERVERS AND EMAIL

Easily install and activate ESET endpoint platform solutions covering your customer endpoints, as well as file and mail servers.

MANAGE CLIENT CONFIGURATIONS

Set ESET-specific configuration policies on Windows® endpoint and server clients. Create new policies or upload existing XML configurations exported from the ESET security software. Manage every available ESET configuration option including Spam, Firewall, HIPS, Device Control and Web Control modules.

THREAT MONITORING

Get a comprehensive view of ESET Scan Logs, Threat Logs and Protection Status directly in NinjaOne, as reported to Windows Event Log, updated based on a custom interval.

REPORTING AND ALERT MANAGEMENT

Automatically run remediation actions based on reported ESET Errors, ESET Warnings and ESET Information which are displayed directly in the NinjaOne platform.

The screenshot displays the NinjaOne management console interface. On the left is a dark sidebar with the 'ninja' logo and navigation links: Dashboard, Search, Configuration, Organizations, and Devices. The main content area is titled 'HUBBLE' and includes a search bar and tabs for OVERVIEW, DETAILS, SETTINGS, SOFTWARE, and OS PATCHES. A 'CONNECTED' status is shown at the top right. The 'SCHEDULED ACTIONS' menu is open, listing various tasks such as Windows Update, System Restore, Maintenance, Hardware Settings, User Account Control, Removal Scripts, ESET Activation EES, ESET Install EEA, ESET Install EES, ESET Monitor, ESET On-demand Scan, ESET Reset logs, ESET Uninstall, ESET Update, and ESET Upgrade EES. The 'ESET Activation EES' option is highlighted. Below the menu, a 'Connected' window shows system information for a Windows 10 (Build 17134) (64-bit) (Release ID 1803) machine, including hardware details like the HP 820 Workstation and network information. A 'Health' section at the bottom displays two warning icons: 'Disk/Volume Free space for "C:" is less than equals threshold 15% from 2018-11-12T16:35:53Z to...' and 'Disk Active time for "D:" is greater than threshold 90% from 2018-11-12T23:22:30Z to 2018-11-12T23:22:30Z to...'. On the right side of the console, a 'DELETE' button and a 'CET Time' dropdown are visible, along with a list of actions and their completion status.

About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services to deliver comprehensive, multilayered protection against cybersecurity threats for businesses and consumers worldwide.

ESET has long pioneered machine learning and cloud technologies that prevent, detect and respond to malware. ESET is a privately owned company that promotes scientific research and development worldwide.
